

# Allianz Johnston VT650/800

## Vacuum Street Sweeper

*Keeping Your City Clean...*

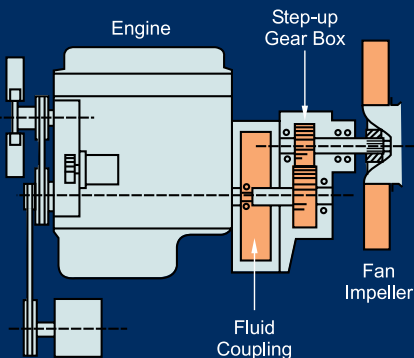

**VT650 Features & Benefits**

**Sweeping Performance**

- Huge 190 sq. in. vacuum nozzle for heavy leaf pick up
- Uncomplicated design of all sweep systems and engine installation means easy maintenance, less downtime and maximized operational availability — which all contribute to high productivity and lowest cost of ownership.
- Straight-through suction system: Debris is conveyed in a straight line from the vacuum nozzle into the debris hopper to reduce wear and associated cost.
- Swivel control panel places all controls at operators' fingertips. Johnston's innovative "ergo" switch allows one-button operation to control all sweeping functions.
- Only Allianz Johnston offers the choice of in-cab or external dump controls as standard equipment providing the operator with a choice to adapt to inclement weather conditions.
- Quick change brush replacement systems for both the gutter brooms and main broom, simplifying maintenance and increasing productivity.
- Centralized, weatherproof systems locker. All sweeper control solenoids are located in a central area to reduce troubleshooting time. Quick release test ports facilitate easy troubleshooting.
- Corrosion proof electrical connectors to IP65/IP67 standards protect the system against water ingress.
- All pneumatic lines are color coded to facilitate troubleshooting and incorporate push-lock connectors for quick repair.
- Gutterbroom tilt option allows the angle of the brush to be changed from within the cab

**Engine Performance**

- John Deere turbocharged diesel engine
- Sealed engine compartment for reduced sound pollutants
- Step-up gearbox fan transmission system, available with industry's most comprehensive power train warranty: a full 5 years of protection, increases fan speed at a ratio of 1.79:1
  - Results in lower fuel consumption
  - Less engine wear and tear
  - Lower noise levels

In-cab control panel features small, easy-to-use controls unmatched in the sweeper industry.

Optional 360° Top-mounted hydraulically assisted catch-basin cleaner.

**Optimum Durability**

Allianz Johnston is the most widely sold vacuum sweeper in the world, offering industry leading performance, advanced efficiency, top-quality features and unequalled reliability. The VT650/800 is packed with more standard features than any other vacuum sweeper on the market.

Compact and efficient, the sweep gear is designed for maximum performance and protection from damage. Add a comprehensive range of optional equipment, and you have a versatile product ideal for a variety of sweeping applications.
